

YOONUS K, PMP®

AI Full Stack Engineer | AI / ML & Generative AI · Banking & Fintech | Cloud & MLOps

Riyadh, Saudi Arabia · [linkedin.com/in/yoonus-k](https://www.linkedin.com/in/yoonus-k) · yoonusk2001@gmail.com · 0534399810

English, Arabic — Professional proficiency or above

PROFILE

AI Full Stack Engineer delivering production AI, ML, and Generative AI systems in secure, regulated banking environments. Full-stack experience across data pipelines, LLM/RAG systems, agentic applications, APIs, and MLOps — from concept to deployment on OpenShift and bank-managed GPU infrastructure. PMP-certified, with internal AI platforms adopted by thousands of employees and measurable efficiency gains across operations.

EXPERIENCE

AI Full Stack Engineer

12/2025 – Present

Alinma Bank · Riyadh, Saudi Arabia · On-site

- Built and rolled out an internal agentic coding assistant adopted by 6,000+ employees across departments, cutting routine engineering effort.
- Deployed AI applications and self-hosted LLMs (e.g., Kimi K2.6) to Red Hat OpenShift on bank-managed GPU infrastructure, ensuring data residency and regulatory compliance.
- Delivered AI products from concept to production — an internal vibe-coding platform, a Figma-to-code generator, an AI email assistant, and a novel agentic RAG system for grounded, enterprise-grade knowledge retrieval.
- Built AI agents in the bank's super-app that execute natural-language queries and actions on customer accounts.

IT Project Manager

10/2025 – 12/2025

Digital Awareness Corporation · Riyadh, Saudi Arabia

- Built a fully automated AI agent for government tender analysis, improving processing speed and efficiency by 300%.
- Increased company sales by 80% through active customer engagement, improved communication, and client satisfaction efforts.
- Managed full project lifecycles, ensuring alignment with business goals and consistent on-time delivery.
- Drove the adoption of AI-driven automation tools to reduce manual work and scale operations across departments.

IT Manager

01/2024 – 10/2025

Starbucks (Arabian Gates) · Jeddah, Saudi Arabia

- Engineered inventory forecasting with AI, boosting efficiency 30% and saving 15+ hours/branch/week.
- Deployed a data-driven product categorization model that streamlined POS operations, cutting average customer checkout time by 20%.
- Automated financial and data analytics by integrating predictive analytics with ERP systems, improving reporting accuracy by 25%.
- Reduced external IT dependency by 80% by developing and leading internal training programs on AI-enabled tools.

SKILLS

AI & Machine Learning: LLMs | Generative AI | RAG & Agentic RAG | AI Agents / Agentic Systems | NLP | Reinforcement Learning | Transformers | Neural Networks | TensorFlow | PyTorch | Embeddings | Feature Engineering
MLOps & Deployment: OpenShift | Docker | Kubernetes | GPU Infrastructure | LLM Serving / Self-Hosting | CI/CD | Model Versioning | Experiment Tracking | API Integration | Cloud (AWS, Firebase) | Lambda
Programming & Frameworks: Python | Django | Node.js | Java | C++ | C# | React | Next.js
Databases & Data Engineering: SQL | PostgreSQL | MongoDB | Oracle | SQLite | Schema Design | Data Pipelines
Soft Skills: Problem-Solving | Critical Thinking | Stakeholder Communication | Team Collaboration | Leadership

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science — King Abdulaziz University

08/2020 – 05/2025

Jeddah, Saudi Arabia · Major in Artificial Intelligence (AI) & Software Engineering · GPA: 4.95 / 5

Project Management Professional (PMP)® — Project Management Institute

09/2025

Globally recognized certification in project planning, execution, and leadership.
